Acronym	ENACT
Grant Agreement Number	2014-1-IT01-KA202-002672
Date of Delivery of minutes	2016-07-27
Author(s): Person Name / Partner	Diogo Beirão / ADENE

Title of the event	Final Conference of project ENACT: scenarios, competences and opportunities for the energy audits sector
Venue and date of the event	Lisboa, 22th of June 2016
Participants	Jorge Marques / ADENE

## 1. Short description of the event – relation with ENACT

In parallel with the Final Conference of ENACT held in 22 June in Giulianova (Italy), ADENE organized an integrated event, with two sessions: a European session and a national session.

The European session was held in simultaneous with the Final Conference of ENACT in Italy, which aimed to present the activities and results achieved by each Partner in their countries, as well as the proposed energy auditor professional profile and the qualification scheme and the training platform.

The national session, a round table, focused on the professional figure of energy auditor for the residential sector, mainly regarding the legislative framework and integration in the existent qualification system.

Both sessions were chaired by Mr. Jorge Marques, Head of Technical Department of ADENE.

## 2. Target audience - potential beneficiaries (who were the stakeholders of the event; interested in ENACT and why)?

The event was attended by 10 people, namely:

Event Report-PT\_Final Conference.docx  
Page 1

RENAEL

- Expert on energy certification of buildings (residential and service sectors).
- Energy Auditors of buildings (residential and service sectors)

All participants already assisted to the Multiplier Event and they represent a group which is already committed, somehow, with the initiative aiming to launch a process for the creation of the figure of the energy auditor in the residential sector.

### **3. How was the ENACT project disseminated? (i.e. lecture on the project, distribution of material, promotion of website and social accounts, etc.)**

The promotion of the event was carried out through several communication tools:

- A dedicated area in the ADENE's website ([Videoconferência Projeto ENACT](#)), from which the registrations were received.
- E-mailing of a leaflet (invitation) to selected target public.
- Personalized contacts through phone with potential stakeholders.

### **4. Short feedbacks, conclusions and possible follow-up**

Regarding the event organization (logistic, agenda, content of lectures and material), in general, the participants considered as very good.

As mentioned above, the national session was focused in the process for the creation of the figure of the energy auditor in the residential sector participants, and the event was useful to discuss ideas for the respective development and implementation. Furthermore, it was an opportunity to present ENACT system (Talent) to the participants, to whom were distributed the questionnaire for the evaluation.
